Eco Action Day Circular Economy Challenge

Sustainable consumption and production is one of the United Nations' (UN) 17 Sustainable Development Goals (SDG) – the global masterplan for a better future. The goal promotes resource and energy efficiency, sustainable infrastructure, and providing access to basic services, green and decent jobs and a better quality of life for all. In support of the UN SDGs and World Environment Day 2017, Eco-Business and Ricoh Asia Pacific are hosting the inaugural Eco Action Day Circular Economy Challenge.

For this challenge, Eco-Business and Ricoh Asia Pacific are looking for innovative circular economy solutions that will improve sustainable consumption and production patterns in Singapore. These may be tailored for a specific company or sector of your choice. If you are a youth or young professional in Singapore and have an idea that challenges the status quo, this contest is for you!

Winning teams will be awarded with prizes including a trip to Japan, cameras and travel vouchers, as well as opportunities for media exposure. Winners will also get to present their ideas to industry and government leaders at the Eco Action Day Circular Economy Industry Roundtable on 1 June 2017.

The deadline to submit the proposal is 10 May 2017. For more information, please visit <http://www.eco-business.com/ecoactionday/>
