Singapore Eco Action Day sparks regional initiative in Asia Pacific

dana 12th Apr, 2017 75 0 0 Like Share 0 Tweet Share 0 Print

Eco Action Day on 3 April last week in Singapore invited organisations and individuals to pledge green actions for an ecofriendlier Singapore.

The annual event is held in conjunction with the United Nations Environment Programme's World Environment Day (WED), which is celebrated on June 5 every year. The theme "Green the Red Dot, Join the Movement" aims to mobilise residents and businesses, and have them adopt green behaviours to effect positive environmental changes.
