Description To celebrate World Environment Day this year, Ricoh Asia Pacific (Ricoh) and Eco-Business have launched the inaugural Eco Action Day: Circular Economy Challenge in search for sustainable solutions for Singapore.

The Challenge is part of Ricoh's Eco Action Day annual nationwide campaign encouraging awareness and action for the environment, which culminates in the celebration of World Environment Day on June 5.

In support of the United Nations' Sustainable Development Goals (SDGs), Ricoh and Eco-Business are engaging youths and young professionals to develop circular economy solutions applicable for Singapore. This initiative is in support of SDG 12: Responsible consumption and production.

The solution may be applied to a specific company or sector and must apply circular economy principles to improve sustainable consumption and production patterns in the city state.
